

# Cathryn Craig & Brian Willoughby

## International Songwriters And Performers

Funny stories... serious songs... great singing... inventive guitar playing

Individually they have worked with the likes of the Righteous Brothers, Shel Silverstein, Mary Hopkin, Strawbs and Nanci Griffith.

Now they are front of stage singing and playing their own brand of acoustic guitar-based material.

A **Cathryn Craig & Brian Willoughby** show will have you tapping your feet, joining in with the choruses, enjoying their stories and being in awe of Cathryn's great singing and Brian's inventive guitar playing.

Their "Alice's Song" was an Aled Jones 'highlight of the year' on BBC Radio 2  
In April 2017 they were nominated in Folking.com's 'Best Duo' category.
